The amount of rain that has fallen in  
this section for the past two weeks has  
been considerably in excess of what  
was needed. Thus far no damage of  
consequence has resulted and for that  
we have much reason to be thankful  
when we think of the millions of dol-  
lars of property and crop losses as well  
as several lives. Crops in this section  
are splendid and the potato and hay  
crops promise to be the largest ever  
produced.

Several persons in distant states,  
who are receiving copies of the Chron-  
icle are becoming interested in this  
section and will likely visit this coun-  
try this fall with a view to locating.

Thomas Snodgrass, of Spring City,

## OUR TEACHING FORCE.

Who They Are, Where They Will Teach  
and What They are Being Paid  
by the Month.

Saturday the County Board of Edu-  
cation employed the teachers for the  
rural schools, assigned the teachers to  
their respective points of labor and  
fixed the first Monday in August, which  
is the 7th, for the opening of the  
schools.

There was a larger number of teach-  
ers in attendance this year than is fre-  
quently the case and as a result several  
failed to receive schools because of  
there not being enough to go around.  
Some persons who held two and five  
year certificates were turned down for  
persons who had failed but were given  
temporary certificates. While it is the  
purpose of the board to do justice to  
all conditions in some instances seem  
to have worked against certain teach-  
ers until all do not feel that they have  
been treated fairly. The Chronicle is  
not fully informed on conditions and  
cannot for that reason undertake to  
discuss the situation.
